Campaign Against Homosexuality Heats Up

Three months' campaign against homosexuality acts led by activists of Hizb ut Tahrir / Tanzania has continued to gain momentum today, Friday, November 20, 2026 involving picketing, Friday Khutbas, friendly discussions in various areas including Dar es Salaam, Zanzibar, Mwanza, Tanga, Coast region etc.

In these activities, speakers clearly explained the gravity of homosexuality acts, how the democratic system supports this corruption, and urged Muslims and all those who care for good human morals to oppose such evil acts with all strength and isolate all who engage in homosexuality filth as well as those who advocate it, an act which is promoted by foreign colonial Western powers.

Furthermore, Hizb ut Tahrir activists reminded the Ummah that today humanity is being subjected to all kinds of destruction, including severe invasion of the social system from the capitalist system and its democratic system which is pushing a very dangerous concept of "personal freedom" that encourages all evils including homosexuality that not only clash with the religion of Islam and customs but even with human nature.

In these activities a call has been raised for all people to participate in this noble campaign to save the community. Above all, there must be deliberate efforts to uproot the root cause of the problem, which is the capitalist ideology and its democratic system and instead bring forward an alternative ideology of Islam along with its comprehensive social system under the Khilafah (Caliphate) state that will preserve human dignity, protect lineage, and the well-being of humanity.
