

The Real Professional Baby Killers are from the Jewish Entity and those who Blindly Support it

A carefully staged trip to the Kfar Aza kibbutz near the Gaza border sparked a wave of propaganda that made US Secretary of State's visit to Tel Aviv a highly emotional pledging of unconditional support for the Jewish entity's program of retribution in Gaza. At the site, one journalist from i24 news said that a soldier "witnessed... bodies of babies with their heads cut off!" The reporters that were taken to the carefully prepared scene were drawn into the emotion and parroted anything that was told to them by the soldiers at the scene. As the hours ticked by, the story spread and became more and more shocking and bizarre. As if beheading babies was not enough – the rape claim was thrown in for good measure, and all without presenting any evidence. Finally, a few news agencies started to question these claims. For example, CNN wrote: "Israeli official says government cannot confirm babies were beheaded in Hamas attack," and US government officials clarified that despite Biden's repetition of these claims, he had not actually seen any evidence of this, and was merely repeating what was said in the media. Later, after the media started having some doubts there was talk of pictures, and Secretary of State Blinken said that Netanyahu showed him pictures. However, when asked, he was evasive about what actually was in the pictures.

It doesn't matter anymore for the US. They have given themselves the official justification for giving the Jewish entity more bombs to kill Palestinians, as well as the defensive Iron Dome missiles needed so that they can continue their oppression upon the people of Gaza with impunity. Hamas, according to the US administration are 'ISIS' and they are 'pure evil'. It was like this with the justification for giving Ukrainians billions of dollars of support to fight Russians, because Putin, supposedly, was another 'Hitler'. Before Putin, Saddam Hussain was the 'Hitler'. The dehumanization of the enemy is the opening of the door to every barbarity possible, and the Jewish entity and the states that prop it up have kicked that door wide-open.

Coming back to the Palestinians: "We are getting beaten every day, we scream every day. People of the world, protect us! Aren't we human beings? Even animals should be protected. If you have an animal, won't you protect it? Protect us, protect us..." begged Palestinian Authority President Mahmoud Abbas after 'Israeli' incursions into Jenin in the West Bank that left several Palestinians dead earlier this year. No one listened, and the shootings and executions of Palestinians by ones and twos in the fields and streets continued. Even a prominent journalist from Al Jazeera, Shireen Abu Akleh, was filmed as she and other journalists were shot by 'Israeli' bullets. Some were wounded, but the bullet that smashed into Shireen's head killed her straight away, and journalists are still targeted by Occupation soldiers as they report the news. No one listened, and no soldier has been prosecuted or even investigated officially for Shireen's murder. The persecution and humiliation of Palestinians in the West Bank at the hands of settlers under the protection of the

'Israeli' Army accelerated greatly this year. There are plenty of pictures and plenty of videos, but who cares? They are the animals, the inhuman. A Jewish settler would be much more at risk of being prosecuted and punished for shooting a dog or a cat than he would for shooting a Palestinian.

What distinguishes humans from animals is the mind, and that blessed faculty is under attack from many directions, and the Western politicians that exaggerate some events and hide others are one of the stupefying forces. Not to mention being malicious, as they are seeking some mysterious goals that they are not telling their people. So, if there any animals walking on two legs and talking, they are the ones who have allowed their minds to be shrouded, and as for the baby killers: they are now in the skies over Gaza and they have killed more than 500 children, and many of them are babies and toddlers.

Now the water is cut-off, electricity is cut, medicine and food cannot enter, and the latest act of the Jewish entity under the happy eye of the US administration is the warning of 1.1 million people in the North of Gaza to flee their homes. These actions amount to war crimes, and even genocide when we talk about the forcible displacement of a population, but as 'pure evil' supposedly lives there, then everything can be justified. Many Muslims leaders have whispered, but who is taking a stand?

Who amongst the sincere sons of the Muslim Ummah will support the victims of this never-ending barbarity with the action that will change the Middle East forever and drive out the West and its cronies?
