Trump tries to Justify 'America First' Policy at Davos Summit

Attending the meeting of the World Economic Forum in Davos, Switzerland, US President Donald Trump has been attempting to invite business to America despite his previous calls for 'America First'. According to the *New York Times*:

"I believe in America," Mr Trump told a jampacked auditorium on the last day of the annual World Economic Forum in Davos. "As president of the United States, I will always put America first, just like the leaders of other countries should put their country first also. But America first does not mean America alone. When the United States grows, so does the world."

In fact, America has never sought for the world to grow. Trump's 'America first' policy is only an explicit acceptance of what has long been standard America policy. Like other Capitalist Western countries, they have only sought to exploit the world for their own benefit. Secular Capitalism, with its false ideals of freedom and democracy, is a materialistic, egotistical ideology that is not fit for adoption by man. And America does not deserve to be the superpower of the world as long as it adheres to the secular Capitalist ideology. When the Islamic State was the global superpower, the world enjoyed general peace, harmony and prosperity, allowing even Christian Europe to benefit from world trade. But after the fall of Andalus, Europe turned to imperialist hegemony, first over the Americas, then Australia, Africa and Asia, leaving not corner of the world free of Western control. But with Allah's permission the world will soon return to peace and justice under the re-established righteous Islamic Khilafah (Caliphate) State on the method of the Prophet (saw).

America Struggles with Korean Situation

After the firm stance of South Korea against military conflict, America is struggling to continue its policy of interference in the Koreas. According to *Reuters*:

U.S. Defense Secretary Jim Mattis stressed diplomacy as the way to deal with the North Korean crisis on Friday during talks with his South Korean counterpart in Hawaii, a day after Seoul's top diplomat said a military solution would be unacceptable.

Creating problems in the world has become established Western policy for undermining potential challenges to Western dominance and hegemony over the world. The US has long been inciting North Korea in order to create a crisis on China's border to be able to justify continued American aggression against China. But with the fall of the pro-American Park Guen-hye government last year and the election of Moon Jae-in as South Korea's president, China has found a way to begin reconciliation between the two Koreas. But China will continue to suffer as long as America dominates the world.

Syrian Opposition Chooses Disbelieving Imperialist UN over Disbelieving Imperialist Russia

The Syrian revolution is a genuine and legitimate uprising against the evil Assad regime but leaderships of particular groups fail to represent this true spirit. According to *Reuters*:

The Syrian opposition will not attend a peace conference Russia is hosting next week, a spokesman said on Saturday, dismissing the meeting as an attempt by the Syrian government's close ally to "sideline" the current United Nations peace process.

America is the one controlling the entire planning for the war in Syria and is behind both the UN process and the Russian process, trusting neither one but shifting from one to the other as it sees fit. The leaderships of these opposition groups, instead of realising America's weakness in the face of the uprising, think that they can gain some benefit from cooperation with disbelievers. But Allah (swt) has already warned us against this. Muslims will never be successful until they reject the interference of the foreign disbeliever in Muslims' affairs. Allah says: ﴿لاَ يَتَّخِذِ الْمُؤْمِنُونَ الْكَافِرِينَ أَوْلِيَاء مِن دُونِ الْمُؤْمِنِينَ﴾ **"Let not the believers take the disbelievers as Auliya (supporters, helpers, etc.) instead of the believers" [3:28]**.

The solutions for Syria, and indeed for all Muslims lands, is to place our trust in Allah (swt) alone and to seek out and work with genuine, sincere, indigenous, ideological leadership to re-establish Islam and evict the malicious disbelieving foreigner from our lands.
