

## Turkey Meets the Needs of the Jewish Army!

### News:

Palestinian news sources have published a video stating that Turkey's trade with "Israel" continues and that many of the needs of the "Israeli" army are being supplied from companies in Turkey. In the video, quoted by the Hebrew website, the following statements were included: "A container full of clothes has been ordered from Turkey for the 'Israeli' army. The equipment necessary for the "Israeli" soldiers was delivered to the Carmel tower base." (Agencies)

### Comment:

During the protests in Turkey against the attacks in Gaza that have been going on for 2 months and in which 16 thousand Muslims were brutally murdered, it was revealed that Turkey continues to send merchant ships to "Israel", especially while the demand for stopping trade and boycott calls were made alongside the slogan "Armies to Aksa".

According to the registered data of the Turkish Exporters Assembly and marinetraffic, which includes worldwide ship traffic, a total of 253 shiploads of goods have been transported from Turkey to "Israel" since October 7, the date when the massacre in Gaza began. Every day, 7 ships depart from Turkish ports to meet the needs of the Jewish community. The largest item in trade goods is steel exports, which are mainly used in the construction of weapons and military equipment. Turkey and Germany take the third place after the USA and China in transporting goods to the occupying killer "Israel" worldwide.

In fact, these figures are not surprising when we look at the relations between Erdogan's Turkey and the usurping Jewish presence. Because during Erdogan's 20-year rule, relations with the Jewish presence increased fourfold. Even the martyrdom of 9 Muslims from Turkey by Jewish terrorists on the Mavi Marmara ship did not affect the trade. Erdogan, who does not consider the right to intervene in the Jewish presence legitimate by taking refuge in Gaza under the pretext of nation-state borders, has not even taken action to protect Turkey's own sovereignty and citizens. Did not take a single step even to criticize the Jewish presence! But Erdogan and other government officials have never given up on Hamas on the Palestinian issue. They said that the Al-Aqsa Mosque was a red line, on the other hand, they welcomed the President of the Jewish community on red carpets in the Complex and made the Turkish soldier carry the rag flag of "Israel".

Here are the most recently published images that revealed that Turkey sent containers full of thermal underwear to Jewish army soldiers who have been occupying, murdering and extorting in the blessed lands for 75 years. The occupation media shared images revealing the hypocrisy of the government in a humiliating way to Turkish Muslims. In other words, the usurping Jewish entity gave the message 'no

matter how much you boycott, the Turkish state and its rulers continue to feed and support us'. The Anti-Disinformation Center affiliated with the Directorate of Communications tried to dilute the issue by saying that since 2021, it has become mandatory to write "Made in Türkiye" instead of "Made in Turkey" on goods produced in Turkey and exported abroad, so the incident is out of date. Because the Communication Presidency is the focal point of the issue, does Turkey continue to trade with "Israel" or not? He didn't answer her question!

Yet everything is very clear. President Erdogan has always deceived Muslims and betrayed our honours for the sake of the relations with Israel and the Communications Presidency and trolls will not be able to cover this shame.

It is still fresh in the memory of Muslims that steps of normalization were taken with Jews because the colonial infidel America ordered so. Also it is not forgotten that Erdogan, joked at the Turkish house in New York back in the time with Netanyahu, who today is called by Erdoğan as the "butcher of Gaza" and utters him to be tried but also continues to negotiate with the transportation of NG through Türkiye, occupied from our blessed land, Palestine.

The fact that not a single concrete step was taken at the summit of the Organization of Islamic Cooperation in Riyadh, where Turkey boasted of drawing up the framework of the final declaration in recent weeks, shows that friendship with Jews is a caretaker mission far beyond commercial relations. US Secretary of State Blinken's statements regarding the Jewish presence "As long as the United States exists, you will not have to defend yourself" should also be understood as that the United States is confident of the rulers in Turkey and other Islamic countries in this regard.

Because while a great genocide is taking place in Gaza, the fact that President Erdogan and 57 useless leaders rushed to the climate summit meeting in Dubai confirms this. Therefore, it is these infidel-friendly rulers and the secular capitalist system that shackles the will of Muslims that should really be boycotted. The liberation of Palestine and the Al-Aqsa Mosque will be realized by the Islamic armies led by a Khalifah Rashid (righteous caliph) who holds the glory of Islam above everything. By the permission of Allah, those days are not far away at all.
