

Hashim Gaza Cries Out: There is No Salvation Except for the Islamic Ummah to Establish Its Own State!

News:

The Organization of Islamic Cooperation condemned the attack by "Israel" targeting Palestinians waiting for humanitarian aid in Gaza. In a written statement, the OIC expressed its strongest condemnation of the heinous attack in which "Israel" targeted a community of defenseless Palestinian civilians waiting for humanitarian aid trucks to arrive in the southern Gaza Strip, resulting in the death of dozens of people and the injury of hundreds. Comment:

As the massacre and siege of the Jewish presence against the people of Gaza has passed its fifth month, the Organization of Islamic Cooperation continues to publish shameful messages of condemnation. The 57 country governments that abandoned the honorable people of Gaza to starvation and genocide first condemn them as if they did not have powerful armies consisting of millions of soldiers, and then they refer the issue to the United Nations, the founder and protector of the Jewish community.

Although Zionist Demons commit heinous crimes every day in Gaza, these administrations are only making a three-line statement from their usual position when it comes to the tragic massacres featured in the media. Sometimes, as in the meeting hosted by the Presidential Directorate of Communications in Istanbul last week, they gather at the level of Information Ministers to address the disinformation activities of Jews aimed at the world public opinion. As if the Jewish entity did not commit all its massacres openly and proactively. The latest statement of condemnation also came after 112 Muslims were martyred while waiting for aid in southern Gaza. While the hypocritical Western states, which watched the death of more than 30 thousand people, mostly women and children, were talking about the importance of protecting civilians with the tip of their tongues in the latest attack by Jews, the Organization of Islamic Cooperation accompanied them.

What is more shameful is that the member administrations of the organization continue to provide logistical support to the Jews from behind the scenes, while publicly pretending to be sorry for the people of Gaza.

These leaders, who are remembered with anger and hatred by the Islamic Ummah, are really competing with each other about betrayal and abuse. According to a report published by the Palestinian news agency Quds News on February 23, Turkey and Jordan are the top two countries exporting the most vegetables and fruits to the Jewish presence. But King Abdullah of Jordan is trying to cover up his betrayal by posing for the world in his military uniform from an airborne aid plane to Gaza. The Erdogan government, which has been collecting votes from the Ummah by saying "if

we win, Palestine wins" for decades, is busy looking for reputation next to the Egyptian dictator Sisi, who supports the Jews by building walls on the Gaza border from below and above. They are all looking at the directions of America. In their language, they say, "Let the people of Gaza and the resistance surrender to the American plan as soon as possible, and let's return to normalization with the Jews."

What is happening is this: America, the ringleader of kufr, is now using the hunger weapon against Gaza, which he also used to take over the Syrian Islamic revolution. The vile Jewish existence, like the tyrannical Assad regime and others, is just a tool. This war is the war of Islam with kufr. Senile US president Biden humiliates the Islamic Ummah by promising a truce while eating ice cream. We have come from the period of the glorious caliphs who spread grain on the mountains so that wild animals would not starve in the Muslim countries to the days when the children of Muslims were killed by hunger.

Therefore, as an Ummah, we have fallen into such a heedlessness that we need to constantly ask ourselves why Allah is causing us to experience this humiliation. How have we deceived the world so that corrupt regimes that have taken the intellectual and political values, laws and laws of the West as gods have haunted us. How long are we going to settle for this miserable captivity? When are we going to behave like a living Ummah and refuse to have our sacraments trampled on and our bodies exposed while we are alive?

How long will the rulers of Ruwaybida remain as obstacles that control our destiny, decisions and abilities, preventing us from our strength, unity, laws and jihad? How long are we going to keep getting bitten in the same hole a thousand times?

The truth is that what has happened in Gaza in the last five months is a lesson to be learned in terms of seeing the point at which the superstitious democratic struggle has brought Muslims. Now is the time of awakening and resurrection. The Islamic Ummah must now bring up its own leader and establish its own state, the Khilafah Rashidah (rightly guided Caliphate). Because, as the latest example of our lack of ownership, which began with the breaking of our shield a century ago, the fury of humiliation and humiliation we are experiencing in Gaza cries out to us this fact very bitterly.

﴿إِنَّ اللَّهَ لَا يُغَيِّرُ مَا بِقَوْمٍ حَتَّىٰ يُغَيِّرُوا مَا بِأَنْفُسِهِمْ﴾

“Indeed, Allah does not change the state of a people until they change their state.” [Ar-Rad: 11]
