

The Lethal Massacre of Rafah

Is there any humanity left in the world, let alone in the Muslim Armed Forces?

News:

Doha - May 27, 2024: The State of Qatar condemns in the strongest terms the 'Israeli' bombardment that targeted a camp sheltering displaced people in Rafah in the Gaza Strip and left dozens of martyrs and injures; considering it a serious violation of international laws that would double the worsening humanitarian crisis in the besieged Strip.

The Ministry of Foreign Affairs emphasizes the need for the 'Israeli' authorities to adhere to the decision of the International Court of Justice calling for an end to the military attacks on Rafah; and called on the international community to take urgent action to prevent the commitment of a genocide, provide full protection for civilians, and prevent the occupation forces from implementing their plans aimed at forcibly displace civilians from the city which has become a final refuge for hundreds of thousands of displaced people in the Gaza Strip.

The Ministry expresses the State of Qatar's concern that the bombardment would complicate the ongoing mediation efforts, and hinder reaching an agreement for an immediate and permanent ceasefire in the Gaza Strip and the exchange of prisoners and detainees; hence exacerbating further the effects of this war and its repercussions on regional and international security. Comment:

The massacre of Rafah happened with impunity.

The images out of the camp are horrifying. The lethal massacre of the humanitarian area designated for the displaced to shelter was bombed and engulfed in flames. Images of headless babies and burned bodies blown to pieces as the criminal Jewish bombed the shelter. The gravity of the mass destruction is immeasurable!

Meanwhile, we have Jordan that reiterates its 'unequivocal condemnation of these actions', as announced by embassy spokesperson Sufian Qudah who described them as blatant violations of international law and international humanitarian law, contravening all human and moral values.

Turkiye's president Recep Tayyip Erdogan said in a televised address. "Sunday's attack on Rafah, which came after the International Court of Justice's order, has exposed the treacherous and bloody nature of the terror state."

Was this treacherous and bloody nature not exposed to the entire world!? What a condescending statement that mocks the entire Muslim Ummah. The scale of abandonment before the eyes of the entire world and more importantly before Allah Almighty, remember that Allah is also Al-Qahhar Al-Muntaqim and the screams of Rafah and Gaza will not go unheard by Him (swt). ﴿إِنَّ بَطْشَ رَبِّكَ لَشَدِيدٌ﴾ **“Indeed, the vengeance of your Lord is severe.”** [Al-Buruj:12] What is needed is not words but the command for the entire military to move to eradicate the Jewish entity and rescue the scorched people and land of Palestine.

“We present this new crime to the international courts to reinforce the evidences to pin these war crimes and indict them,” the Arab League's Secretary General Ahmad Abul-Gheit said. Is more evidence needed for the kufr courts only to face inaction due to the benefactors' dominance?! Indeed, it their barbaric nature and their spite for Muslims.

Atrocities deliberately carried out before the neighboring Muslim countries and what the people of Rafah get in return are “strong condemnations”!!! This is what the criminal Netanyahu and his gang declared from the beginning, yet the Muslim armies remained paralyzed. What good will this do to them except give another green light for the monstrous entity to kill more innocents and obliterate the entire Gaza Strip and the West Bank because all they will get is another statement of hollow words! Arab regimes suffice with using X to post acting like they do not have armed forces. Regular people take to social media to condemn and protest not governments who claim to support Palestine!
