

Netanyahu Applauded in the US Congress

News:

On July 24, Prime Minister Netanyahu of the occupying Jewish entity held a speech in the US Congress and was warmly applauded by the elected representatives of the American people.

Comment:

More than nine months have passed since the unprecedented massacres, atrocities, genocide, destruction, crimes against humanity and war crimes perpetrated by the usurping Jewish entity against the deprived people of Gaza who have been imprisoned in a conviction and death camp.

During this time, humanity witnessed the legendary resistance of a handful of mujahideen and the people of Gaza and how fragile and weak the myth of the supposedly invincible Jewish entity is.

Both Muslim and non-Muslim peoples have organized massive demonstrations all over the world condemning the Jewish entity and supporting the Palestinian people.

The Jewish entity, the Western colonial states that support it and the rulers of the Muslim peoples were unmasked.

As the perception of the Jewish entity as an oppressed people was destroyed, a new public opinion emerged that fostered anti-Semitism and hatred of Jews as the reference point for the ultimate evil in the world.

The world order led by America, the international system, institutions and organizations, and the values of the colonial Western civilization began to be questioned.

The Jewish entity has failed to achieve its goals in Gaza, despite massive support from the colonial West.

The pressure against the Jewish entity and Netanyahu is on the rise, both internally and externally.

Stuck in the face of all this, struggling to maintain his power, insecure about the future of the Jewish entity and the support of the colonial West, Netanyahu went to America for approval.

His speech to the United States Congress as the world's most despicable and biggest liar was warmly applauded by the elected representatives of the American people.

In his speech, he tried to identify the usurping Jewish entity with America, saying that "Israel defends the Western civilization, Israel defends you and your civilization, our war is your war, our victory is your victory".

The speech represents a confirmation of the continuation of the genocidal war on Gaza and an attempt to gain support to expand it.

The speech is also a confirmation that the usurping Jewish entity, with an army armed with the most powerful weapons, has failed in the face of a handful of faithful mujahideen and cannot wage this war without the support of America.

The fact that a genocidal war criminal spoke in the US House of Representatives and was warmly applauded will be remembered for centuries in the collective consciousness of humanity as America's celebration of the genocide perpetrated by the Jewish entity in Palestine.

The fact that America, at the expense of protecting and supporting the Jewish existence, tramples on and renounces the values that led it to world leadership and made America what it is, is an important indication that it can no longer lead the world.

The fact that civilizations begin to move away from the values that brought them into existence is a sign that their collapse is imminent.

As the colonial kafir Western civilization, led by America, drifts towards its own suicide, the rising value of the world and humanity will once again be Islam to which there is no alternative.
