

What can the series of colonizing conferences give to Muslim population?!

(Translated)

News:

Afghanistan donor countries under Joint Coordinating and Management Board (JCMB) had a gathering session on April 4 in Kabul. Mohammad Ashraf Ghani, John Kerry's appointed president to Afghanistan, said in the meeting that the level of poverty has increased from 46 in 2013 to 49 in 2014. He pointed out the withdrawal of colonized forces and unemployment as main causes to poverty increase.

Comment:

JCMB gathering was a preparatory session for the Afghan government to have detailed discussions about colonizing countries' priorities and their funding areas for upcoming Brussels and Warsaw sessions. It is decided to call Brussels and Warsaw sessions in regard to the mentioned matters in May 1 and the latter session after two months during the current year.

Afghans have a fourteen-year experience of pledges of such conferences, noting how much their life has not changed for the positive. They have completely comprehended that such conferences in the region and Afghanistan are being called by puppet and appointed treacherous rulers to report about colonized countries' achievements in the country and set goals for the future and prepare enough resources to keep the colonization continuing.

To deviate public opinion and create false hope, the media is reflecting prominent messages regarding poverty, unemployment, corruption, security and peace from these conferences. In reality, the colonists want to pursue their colonizing goals through our blood in our land and replace our sacred beliefs and ideology with their blasphemous ideology, culture and secular system.

Afghans have the experience of many such conferences like the conferences of Bon, London, Chicago and Tokyo... that resulted in nothing but fighting, killings, corruption, insecurity, disunity, internal violence, immigration, unemployment... This is first time the traitorous puppet ruler confesses increasing poverty, but the main causes are not withdrawal of colonizing forces and unemployment; the main causes are the ruling of corrupt capitalists elites appointed by capitalism through democratic processes. This is not the case of Afghans only, the entire Muslim population and even humanity are suffering from the same situation.

These puppet authorities always give good pledges to people but the reality of people on the ground is unexplainable. Therefore, the latest surveys indicate that people don't trust John Kerry's government and are worried about their future; as a result of which hundreds of thousands are leaving the country.

Such conferences are meant to support traitor rulers and tyrant governments, and it is the indication of West and America's continued crusade war against Islamic wakening under the names of terrorism and extremism. Mohammad Ashraf Ghani has said to the participants in the session that terrorist groups still exist as threat in Afghanistan, currently much focus is on ISIS, but Al-Qaeda should not be forgotten as they are organizing themselves. He added that in war against terrorism, joint intelligence and security system should be designed. He flatteringly said that donor countries' taxpayers' money will never be wasted, and we will fulfill our promises with the international community before Brussels and Warsaw sessions.

Our problem like the problem of the rest of the Ummah relates to the imposition of failed puppet governments and the ruling of treacherous authorities. They are tyrants, mischievous and even some of them non-believers; their governments are colonization projects; they are only loyal to the goals and benefits of colonists and that's what they are appointed for. They don't rule based on what Allah (swt) revealed and on what Muslims believe upon; contrary to the belief of people, they rule on man-made drafted laws, and consider colonists' benefits in designing every strategy and policy. They never think about people's affairs but try to supervise the affairs of the boss as being a good servant even if it results in loss, damage, killings, violence, corruption, unemployment and even genocide of the public. So wake up as there is no way other than fundamental change!
