They Declared War on Children to Pass More Truces of Shame and Humiliation!

(Translated)

According to the latest UN report, more than 350 civilians have been killed in Idlib and 330,000 people have been forced to flee their homes since the fighting escalated last April 29. However, these figures have been amended according to a senior UN official. He added that 103 deaths took place, which included 26 children, in air strikes on hospitals, schools, markets and bakeries in northwestern Syria over the past 10 days, and he estimated more than 400,000 people have been displaced...

Under the eyes and ears of the whole world and under the largest microscopes, the war relentlessly continues and with it continues the killing of civilians in Idlib and targeting of innocent children, even in their schools. The attacks also continue on all basic services, including hospitals and schools. The Save the Children organization warned that the number of children killed in Idlib over the past four weeks has exceeded the number of deaths in the same area over the whole past year.

The systematic shelling and deliberate targeting of innocent civilians in Idlib, which is the last liberated area from the regime, with a high number of displaced people, shows that the war on children has not ended and will not stop despite the appeals of these organizations and their successive reports, and despite the conferences, or rather conspiracies of Western politicians, because it is a war on Islam and Muslims who raised the banner of Tawhid. It is a war declared by those who do not know humanity and who see that the blood of our children is cheap and use them to negotiate to subdue the revolutionaries to pass more truces of shame and humiliation, to eliminate the entire liberated areas. This is while the people moved to topple the regime, which will not fall except by uniting all fronts and by the unity of all faction leaders and by rejecting all cheap compromises, and by re-raising the first slogan of this blessed revolution "it is for Allah, it is for Allah".

How long, O organizations, will your calculator continue to subtract and add numbers in daily, monthly and yearly tables of innocent deaths in Syria?!

How long, O rulers and agents, will your eyes remain blinded to the pictures of the remains of our children?! And your ears are deafened to hear their pleas and screams? And your tongues are silenced from the support of the orphans and oppressed? These are rhetorical questions of condemnations! How can the good be expected from the evil people?! How can justice be applied by the oppressors?

We turn first in supplication to Allah (swt) to remove this black cloud from our people in Ash-Sham, and then from this great Ummah, and to re-unite and return us as one body to mobilize the armies and be in control of their affairs.

This is our situation without a state that protects and looks after us ... This is our situation without a Khalifah who leads and supports us ... This is the situation of the enemies of Islam and Muslims that Allah (swt) described: ﴿وَلَا يَزَالُونَ يُقَاتِلُونَكُمْ حَتَّىٰ يَرُدُّوكُمْ عَن دِينِكُمْ إِنِ اسْتَطَاعُوا﴾ "And they will continue to fight you until they turn you back from your religion if they are able" [Al-Baqara: 217].
