

Press Release

After a Reluctant Opposition

The Regime in Jordan Participates in the Bahrain American Workshop

(Translated)

The regime in Jordan, finally announced its participation in the Bahrain conference that America called for, which according to what is rumored, it is the economic aspect of the so-called deal of the century and the introduction to it. This is after their numerous refusals that gave us headaches, which it mobilized popular support. The official spokesman of the Ministry of Foreign Affairs and Expatriate Affairs announced on Saturday 22/06/2019: "Jordan has decided to participate in the economic workshop that the United States of America and our sister the Kingdom of Bahrain in Manama called for, on 25 and 26 of this month, at the level of Secretary General of the Ministry of Finance, to listen to what will be proposed and deal with it according to firm principles, and that the Palestinian issue is the first central issue and there is no alternative to the two-state solution, in accordance to the resolutions of international legitimacy." He stressed that "Jordan will deal with any economic or political proposal according to its established positions, and accept what is consistent with it and reject any proposal that is inconsistent with its principles."

The successive sham of the regime's opposing positions for this deal since the American decision to transfer its embassy to Jerusalem and consider it the eternal capital of the Jewish entity, is a measure that shook the regime and the street mobilized to defend and unify around it. The people moved against the conspiracy of the United States and the West as a whole against the Ummah and its yearning for Jihad and moving the armies to end the Jewish occupation, and not just as the media is promoting, it is to register the positions of Jordan's refusal to participate in the Bahrain conference after Kushner's visit to Jordan to promote his plan. It did not deny and did not confirm its participation, and there was ambiguity and delay in its position, and remained reluctant until the last minute under the item stated by the Minister of Foreign Affairs, that the regime is one who decides whether or not to attend. Anticipating the growing popular momentum and marches that reject the Bahrain treacherous conference, as its slogans proclaimed, in order to improve the chances of participation of the regime to reap the gains under its fears that are adding pressure to it, whether in politics, economy, financial or in order to preserve the so call guardianship over the sanctities despite it being under the Jewish occupation.

On the same day, Jared Kushner announced in an interview with Reuters the most important items of the economic vision of the opportunity of the century as he called it, and on the title of the workshop, "peace to prosperity" plan. The most significant features are projects worth 50 billion dollars for the Palestinians, Egypt, Jordan and Lebanon, half are for projects in the Palestinian territories. The most important of which is the project of establishing a corridor between the West Bank and the Gaza Strip worth 5

billion, of which 7.5 billion for Jordan to establish 15 projects, in addition to 9 billion for Egypt and 6 billion for Lebanon, placed under the guardianship of an international fund and financed by the largest Gulf countries and Saudi Arabia. Kushner said that the purpose of starting with the economic side is to gain peoples' satisfaction or rather to bribe the people, when you touch the real breakthrough you achieve support for the political support, and abandon the matters of contention when announcing the features of the political solution. At the end of the year after the Jewish entity spoiled the American plan when they announced it early as a result of dissolving the Knesset...

How then, after all this open declaration by America about its plans, which explains the necessity of making the Palestinian issue just a matter of money and compensation and projects, how can Jordan participate in this treacherous conference justified by the spokesman of the Foreign Ministry that the presence of Jordan is to listen to what will be put forward?! After all this clarification and conspiracy imposed by America on its tools in the region, and the regime continues to participate, unite and comply with the West and international legitimacy, and it boasts that Palestine is its central issue, yet it is canceled every day on the map, and it bans all the rallies by the Ummah that reject the colonial kafir projects that destroyed the people and the land, can there be justification after all that?!

O Muslims ... O our People in Jordan

The Western colonial solutions of America and Britain are solutions to focus the influence of the enemies of the Ummah and to achieve their interests and stay in the region. Despite the dependence and the work of the regimes, they realize that if it were not for the rejection by the peoples of the region and the Islamic Ummah as a whole they would have achieved what they want to control and occupy their land and plunder their wealth. And they are in agreement with the Jewish entity to exclude the project of its revival by the return of the Khilafah Rashida (righteous Caliphate) on the method of the Prophethood.

The solution to the question of Palestine and the Islamic sanctities and their liberation can only be achieved through jihad for the sake of Allah, which is certainly not the two-state solution or the one state. They are forbidden (haram) and contrary to Islam and are a betrayal of the Ummah and Islam. He does not dare to liberate the blessed land the one who surrendered it in stages to the Jews. Or those who rush to normalize relation with their entity, and certainly not one of these Arab regimes. The works of the West and its allies and conspiring to establish intimate relations with the monstrous entity of the Jews, but rather the one who puts an end to the Jews, the usurpers, is the Khalifah (Caliph) of the Muslim at the head of an Islamic state, who is truthful to his Ummah, prepares and leads in Jihad and eradicates the Jewish entity from its roots, and eliminates the influence of the entire West from the region headed by America and Britain and their cowardly tools.

﴿وَمَنْ يَتَوَلَّ اللَّهَ وَرَسُولَهُ وَالَّذِينَ آمَنُوا فَإِنَّ حِزْبَ اللَّهِ هُمُ الْغَالِبُونَ﴾

“And whoever is an ally of Allah and His Messenger and those who have believed - indeed, the party of Allah - they will be the predominant.” [Al-Ma’ida: 56]
