False allegations against Hizb ut Tahrir will not prevent the establishment of Khilafah

## **America Mobilizes Its Lying Agents as the Return of the Khilafah Draws Near**

On 10 February 2014, Monday, various TV channels aired a ticker reporting that the Interior Ministry sent a report to Karachi police and Rangers about Hizb ut Tahrir, depicting it as if it were a branch of Al Qaeda and that it had established its presence in Karachi University, distributing leaflets on its premises. Such a ridiculous lie from America's agent-rulers is a clear proof of Washington's intellectual bankruptcy and sheer madness. Hizb ut Tahrir is an Islamic political party which works for the re-establishment of Khilafah only employing intellectual and political struggle by following the methodology of Rasul Allah (saw). It considers material or militant struggle forbidden by Islam for the establishment of Khilafah. Every aware person knows that Hizb ut Tahrir was established in 1953 in Al-Quds, since then it has considered all Islamic groups as brothers in Islam, despite the differences in methodologies. And it has never joined any group in their activities, if they are not political or intellectual activities.

This campaign of slandering and propaganda by the agent rulers against Hizb ut Tahrir has intensified because they have not a single word of truth on their side and are besieged by the Hizb's intellectual and political struggle. They and their Kaffir colonialist masters reel in shock at the growing love for Islam, Khilafah and Hizb ut Tahrir amongst the common people and the armed forces. Hizb ut Tahrir states clearly to the traitors in the political and military leadership that whatever propaganda they spread against Hizb ut Tahrir, the establishment of Islam as a state and authority will happen by the will of Allah (swt). They will fail as miserably as the Kuffar of Quraish before them failed, when they mounted a campaign against the Prophet (saw) declaring him a magician, poet and a fortune teller.

Hizb ut Tahrir wants to remind the media outlets in Pakistan that airing false news is a sin. Pakistan's media knows well that Hizb ut Tahrir is a political party which has never departed from its political and intellectual course, although its Shabab have been continuously arrested, abducted, tortured and even martyred since its inception, but it never resorted to militant struggle to establish the Khilafah, as it considers this forbidden. Therefore we sincerely advise the Pakistani media that they must not become a part of slandering and conspiracy against their brothers and sons in Hizb ut Tahrir. RasulAllah (saw) said, «...ومن كان يؤمن بالله واليوم الآخر فليقل خيراً أو ليصمت» "He who believes in Allah and the Last Day ..., let him speak good or remain silent." [Al-Bukhari and Muslim].
