## **Your Audacity Towards Allah, you Oppressors, Heralds the Approach of your End**

(Translated)

While the Jews were besieging Kamal Adwan Hospital in Gaza, then storming it, then burning it, and leading the patients, wounded, and medical staff inside to an unknown fate until the moment of writing this statement, instead of the authority condemning their crime, instead of inciting the world against their heinous actions and sadism, instead of mobilizing the Islamic Ummah to support the people of Gaza, instead of being ashamed of itself out of respect for the wounds of Gaza and the West Bank, it refused to do anything but be in Jenin, doing the actions of the Jews and abusing the people of Palestine as the Jews abuse.

After midnight on Friday night, 27/12/2024, at around 2:00 AM, the bats of the night opened fire on the house of Professor Nimer Nassar from Qalqilya, and the bullets penetrated the door of his house. Then, after Friday prayers, the criminal Authority kidnapped him, so that the night's thuggery was completed with the day's criminality, and so that the Palestinian Authority could prove that it is the one that unleashes its rabid thugs on the people of Palestine.

It had previously opened fire on a number of houses of the people of Qalqilya, three days ago, and these criminal incidents are still ongoing in more than one governorate.

At the same time, the criminal authorities who dared to defy Allah were committing another crime, as a large force raided the house of Engineer Muhammad Nidal Ayesh in Artas - Bethlehem, but they did not find him. The family of the house warned the intruders of a fate similar to that of Bashar's followers, so the response of the sinful aggressors was a great statement (They are lost in the country against the will of your Lord)! They agreed with the statement of their Jewish guardians who dared to defy the Most High, Allah became angry with them and cursed them greatly.

This is in addition to the scenes of beating and humiliation practiced by the Palestinian Authority against the people of Palestine, which its security services document and publish to tell people that I will strike you as the Jews strike you if you utter a word, and I will be the upper hand of the Jews in fighting you. What is worse than that is what more than one person arrested by the Palestinian Authority reported about some members of the PA persisting in cursing the Divine Entity. May Allah Almighty kill them!

Thus, the Palestinian Authority and its apparatuses have witnessed before the eyes of the people that they are the outlaws, no different from the bats of the night and the thugs who shoot people in the dead of night, threaten and even destroy civil peace, and create grudges and vendettas that will not stop at the PA's apparatuses but will drag the country, Allah forbid, into a fire that only the Jews and infidels will rejoice in and will pave the way for the deportation of the country's people from it.

We wonder where are those human rights institutions that claim to document cases of lawlessness, attacks on people's rights, homes, and dignity, and torture in prisons?! Isn't their job to stand up to these crimes and show that the authorities, their apparatuses, and their thugs are outside the "law"?

What is the goal of the Palestinian Authority in making people full of hatred towards its security forces? Is its goal to expand the circle of killing? About four of its security forces have been killed, and many more people, and it is clear that its leaders are determined to drown the people of Palestine in their blood.

If the authorities think that they will silence people and frighten them with their crimes, they are delusional. These crimes fuel people with hatred and anger towards them and their agencies, and push them to carry out acts of revenge against them. Therefore, we call on the members of the security services to think about what the authorities are pushing them to do against their families and brothers. It is enough for you to take a lesson from those around you.

The Blessed Land of Palestine is the abode of Islam, and there will remain faithful men in it who proclaim the truth and do not fear the blame of anyone for the sake of Allah, appearing on the truth and not harmed by those who let them down.

As for the audacity of those criminals towards Allah Almighty, it heralds the nearness of their end, and we give them good news of disgrace in this world and the Hereafter. They sought war not with the people of Palestine, but with the Lord of the people of Palestine, the Strong, the Mighty, the Avenger, the Powerful. So, Allah is their destroyer and the Avenger against them, and perhaps that will be soon.

﴿إِنَّ الَّذِينَ يُحَادُّونَ اللَّهَ وَرَسُولَهُ أُولَئِكَ فِي الْأَذَلِّينَ \* كَتَبَ اللَّهُ لَأَغْلِبَنَّ أَنَا وَرُسُلِي إِنَّ اللَّهَ قَوِيٌّ عَزِيزٌ﴾

**“As for those who defy Allah and His Messenger, they will definitely be among the most debased. Allah has decreed, “I and My messengers will certainly prevail.” Surely Allah is All-Powerful, Almighty.” [Al-Mujadila 58:20-21]**
