Hizb ut-Tahrir / Wilayah Sudan Engages with Muslims in a Public Address at the Grand Market of Port Sudan

(Translated)

In the presence of a large and esteemed gathering, Hizb ut Tahrir / Wilayah Sudan held a political address on Monday, November 18, 2024, near the Ibn Masoud Mosque in the Grand Market of Port Sudan. The event was titled: "*Islam: A Comprehensive System for Life.*"

The address was delivered by Mr. Muhammad Jama' (Abu Ayman), the Assistant Official Spokesman of Hizb ut Tahrir in Wilayah Sudan. He explained that Islam is a comprehensive system designed to address all life's problems and manage people's affairs in all aspects, political, economic, social, and others, citing numerous references from the Qur'an and Sunnah.

Abu Ayman highlighted two critical issues facing the Muslim Ummah today:

- 1. The establishment of Islamic Sharia rulings through the re-establishment of the (Khilafah) Caliphate upon the method of Prophethood.**
- 2. Carrying Islam to the world to guide it from darkness to light.**

He emphasized the dangers of democratic and secular ideologies, as well as the so-called civil or military states, asserting that these are all colonialist projects.

Abu Ayman posed critical questions to the audience: *Why does the Ummah not implement the rule of its Lord today? Why do we rely on the American envoy to solve our problems? Is Islam not a complete system for all aspects of life?* The audience responded with loud declarations of "Allahu Akbar" (Allah is Great).

In conclusion, Abu Ayman gave glad tidings of Allah's promise to establish the Khilafah, empower the deen, and replace fear with security. He urged the attendees to work with Hizb ut Tahrir to achieve this divine promise.

The event concluded with an interactive session where several attendees posed questions and shared comments, which Abu Ayman addressed. The gathering ended with chants of "Allahu Akbar," tears, and heartfelt embraces, expressing love and support for the message shared.
