

## Press Release

(Translated)

As soon as Hizb ut Tahrir / Wilayah of Tunisia launched a campaign to announce the Khilafah (Caliphate) conference for this year, which corresponded to the anniversary of the Prophet's (saw) Hijra, its members were subjected to harassment by the security apparatus in many areas which wanted to find out when will the people travel (to the conference) and with what means of transportation!

What do those in charge of security apparatus in our country fear from the party's endeavor to establish Islam and restore the power from the West?!

Who other than Hizb ut Tahrir meets your goal of preserving the Ummah's security, if your intentions are true?
