### **Campaign: “Get Rid of the Colonialists - End Terror”**

**Hizb ut Tahrir / Wilayah Turkey** launches a campaign under the title of “Get Rid of the Colonialists - End Terror”, which will last for a week from 18-24<sup>th</sup> of April. Throughout the week, we will organize a number of events for this campaign, by the Will of Allah *Azza wa Jal*.

This campaign will once more expose the true bosses behind the ongoing fights in the southeast, the bomb attacks and the subcontractors who carry out these attacks in Turkey and other lands. We will explain that terror is an ugly style invented by the colonialist West and how they support this so-called terror for their own political interest. We will demonstrate the necessary vital steps the sound solution to end the blood-shed, the migration and the looting of our Ummah's wealth.

This campaign, titled “Get Rid of the Colonialists - End Terror” is being launched following the bomb attacks that caused the killing of innocent people upon our soils, the almost yearlong violent clashes in the southeast, the ongoing forced migration, and subsequently after the 13th Summit of the Organization of Islamic Cooperation (OIC) in Istanbul. This is especially while the rulers of the 57 countries whose people are Muslims have talked about a common fight against “terror” during the OIC Summit that started on Friday, the 15th of April!

As part of the campaign, we will conduct official visits, work via social media, and also hold a conference titled “Issue of Terror, True Perpetrators and the Profound Solution”. This conference, at which representatives of political parties and NGO's, journalists, authors and jurists will hold speeches addressing issues like terror and its nature, Islam's view on terror, the West's perception of terror, the heavy toll of terror and our loss, and the colonialists as the true perpetrators behind terror, and the necessary steps to be taken for a profound solution.

We as **Hizb ut Tahrir / Wilayah Turkey** express once more that the ultimate profound solution to get rid of the plague of terror which plagues us and destroys our brotherhood by sowing the seeds of discord, is with the solution of Islam and its ruling system - the Khilafah Rashidah (Caliphate) upon the method of the Prophethood. We ask our Lord (swt) to make this our campaign a means of good.

We put the effort, Allah Almighty grants the success.
