

Press Release

## What is normal is not to normalise the relations with "Israel" but to give what is due to the Mavi Marmara killers

Turkish Prime Minister Binali Yildirim and the Prime Minister of the Jewish existence Netanyahu, have made it known in their press conference to the public that they came to an agreement after meetings that took years between Turkey and the Jewish existence. But whatever the consequences terms and conditions, there can't be an agreement against the Muslims with the old enemy of Islam and the Muslims, the Jewish existence. Those who made this agreement, sat on the table and are pleased with the result, should know that they have betrayed Allah, Rasulullah and Islam. Also they should know that they have stabbed men like Khalifah Umar who conquered Palestine, Salahuddin Ayyubi who purified it from the Crusaders, Sultan Abdulhamid who refused to sell Palestine to the Jews and those who gave their lives like Sheikh Ahmet Yasin, in the back.

This agreement as the Turkish side has been propagating is not beneficial to the Palestinian public. Those who are truly happy about this agreement are the invader Jewish existence government. For they are the ones, as if they are playing with the Muslims, that declare that they would not lift the blockade on Gaza. This shows the lack of vision and cowardice of the leaders of Turkey and shows the arrogance of the Jewish leaders who become encouraged from this.

As it should be remembered, exactly 6 years ago the same thing happened. On the day of 1st of June 2010 the Jewish existence's pirates in the darkness of the night attacked the ship Mavi Marmara which was carrying help to Gaza, 10 Muslim brothers had ascended to the position of *Shahadah* (martyrdom) and help was prevented from reaching the Palestinian public. We had then also said as Hizb ut Tahrir / Wilayah Turkey immediately after this horrible incident to the leaders who only made weak condemnation statements: "...*We that only those who are weak and helpless condemn! Those who are afraid of their enemies and can't bring to account to what was done to their citizens! Those who would be satisfied with only plain apologies, condemn! ...*"

From the day the Jewish existence occupied Masjid al-Aqsa till this day we have never changed our statement and our fury has not passed. But we see that Erdoğan and AKP (Justice and Development Party) who said 6 years ago "Palestinian Dawah is our Dawah, Mavi Marmara will be brought to account and as long as I am here, the relations with 'Israel' will not normalise" has changed their statements a lot. Because those who were giving bold statements, are today trying to explain the "wisdom and benefits" of normalisation. These rulers that just spoke daringly didn't do anything and called the Jewish existence a terrorist state, are now saying that "Israel is our ally", "We have to accept that we need Israel, this is the reality of the region."

We say that this agreement didn't please the Palestinian public and the Muslims and it never will. On the contrary this agreement as it is stated by US Secretary of State Kerry it pleased the USA which you follow its orders to the letter. Your Palestinian Dawah is only in your speeches. Your Palestine love is just to exploit for vote. Your Great Nation Dream has ended with this vile agreement. You think that erecting a couple of buildings in Gaza is something of a work. You think that increasing your economic relations with the Jewish existence a great benefit. You think that living of the crumbs on the table the US set is great glory and honour. Whereas true glory and honour is in Islam. Normalisation with the Jewish existence for us is them being our eternal enemy and cutting all relations. The only truth we take under consideration is that these lands are Islamic lands and that with the establishment of the second Khilafah Rashidah (Caliphate) upon the method of the Prophethood the usurper Jewish existence will be completely wiped out of these lands.
