The Houthi Condemnation of the American Moves in Al-Mahra is a Formality And the Government of Aden does not Care About Anything

(Translated)

The Council of Ministers in the capital, Sana'a, and the House of Representatives and the Shura Council, on 03/05/2023, condemned the reception of the US Ambassador Steven Fagin and the Commander of the Fifth Fleet, Brad Cooper II, to the Governor of Al-Mahrah Governorate, Muhammad Ali Yasser, and officials of the local council and coast guard in the governorate on 02/03/2023 at Al-Ghaydah Airport. Considering the presence of American forces in the governorate, which is based at Al-Ghaydah Airport, and the fight against smuggling as a pretext for it, as a blatant occupation, according to what was reported by the government daily Al-Thawra Newspaper issued in Sana'a on Monday 06/03/2023.

The American forces have taken a great pride in their presence in Al-Mahra Governorate, which has arrived to implement its plans through its forces and soldiers directly, as if Yemen has become an American state under a so-called legal government, whose name has only one connotation, which is opening the doors of the country to the colonial Kuffar to legitimize their entry into the country under a government meager, "which neither nourishes nor avails against hunger." The American presence, as well as the British, in Yemen and other Muslim countries is prohibited by Sharia. Rather, it is necessary to work to expel it and mobilize armies to carry Islam to non-Muslims through da'wah and jihad, and this will only be with the establishment of the Khilafah (Caliphate).

As for the Houthi government's denunciation of the presence of American and British foreign forces on the territory of a member of the United Nations, and one of the contributors to the establishment of the League of Nations, and the talk about efforts to bring peace to Yemen, regional and international security and stability, and asking the occupiers to prove it by actions, not by media statements, means nothing but involvement in foreign schemes against Yemen, weakness and inability to respond as it should, especially since it has been proven that American generals have participated in the Yemeni war. How does this condemnation resonate with the necessity of expelling the American and British occupiers, according to what was stated in Abdul-Malik al-Houthi's recent speech?! The condemnation is in no way consistent with the denial of the application of Islam in real life, as well as the clear partnership with the CIA in the war against al-Qaeda, and the support of the Americans in the CIA's military operations in Yakla, Al-Bayda Governorate. It is also not surprising that the separation of Hadramout and Al-Mahrah is part of the agreement being made with the regime in Riyadh as part of the American plans aimed at fragmenting Yemen! And we only say, "This is what Baraqish has brought to its people."

Condemning words does not work with the presence of ballistic missiles and drones that have reached targets beyond the borders of Sykes and Picot in Najd, Hijaz, and the Emirates, were the strikes of those weapons directed at the American forces, if you were honest?! But how can you do that while you are the ones who emerged from the womb of American politics and were entrusted with the task of expelling Britain's agents from Yemen, and fragmenting Yemen in line with the new Middle East project; The rulers are imposed on the people of Yemen in the north and the south, and they do not have the power to decide, rather they pass on what the Kaffir West dictates to them!

America and Britain will not be expelled from Yemen and from all Muslim countries, and the Sykes and Picot borders will not be removed, and the Ummah's cohesion and dignity will not be restored except by the Second Khilafah Rashidah State on the Method of the Prophethood for which Hizb ut Tahrir is working for, and who is calling on the ummah day and night not to miss this great goodness and sublime honor in this world and the Hereafter. Allah (swt) says: وَيَوْمَئِذٍ يَفْرَحُ الْمُؤْمِنُونَ * بِنَصْرِ اللَّهِ يَنْصُرُ مَن يَشَاءُ "And on that day the believers will rejoice * at the victory willed by Allah. He gives victory to whoever He wills. For He is the Almighty, Most Merciful." [Ar-Rum 30:4-5].
